

**An opportunity to learn more about  
A Progressive Christian Voice Australia**

A Progressive Christian Voice Australia (APCVA) provides an alternative Christian view to mainstream media to help counter the right wing and fundamentalist material coming from other lobby groups. Len Baglow, a member of the management committee and a policy advocate based in Canberra, will lead a discussion on Victorian issues, possible responses, and how people can be empowered to be more active for justice.

One possibility is the establishment of a Victorian branch of APCVA.
